

Soil Health and Your Wealth

Nutrition Farming Strategies Explained – 2 Day Course

You are invited to a two-day seminar/workshop featuring a world leader in high production, regenerative agriculture. Author/educator/farmer **Graeme Sait** is an acclaimed speaker, and host of the popular [Nutrition Farming Podcast](#). Graeme is the author of hundreds of articles and two books. He has trained over 40,000 farmers and consultants on four continents and often consults at Governmental level, as part of his contribution to the regenerative revolution.

This information-packed workshop will focus upon practical, problem-solving strategies to boost productivity and profitability, sustainably. A detailed program is included below.

The seminar takes place on 14 - 15 June 2023. Morning tea, lunch & afternoon tea will be provided.

Graeme Sait

Graeme Sait is the CEO and co-founder of Nutri-Tech Solutions (NTS), a world leader in regenerative agriculture. He is also an author/educator responsible for over 300 published articles and a popular book, "Nutrition Rules". He created the internationally acclaimed, five day, "**Certificate In Nutrition Farming**", and authored the associated, 360 page training manual. His latest teaching vehicle, "**The Nutrition Farming Podcast**" has become an international phenomenon with hundreds of thousands of listens in over 70 countries. Graeme is a sought-after speaker, specialising in soil health, plant health and animal health. More recently, that emphasis has expanded to include planetary health, in recognition of the link between humus and carbon sequestration. His TED talk "**Humus Saves the World**", has had half a million views. Graeme is also an expert in human nutrition and his fascinating presentations cover every aspect of wellness. His seminars are often described as "**life changing**".
